## A Good Night's Sleep !

When you suffer with Sleep Apnea, no part of your life is spared. Downtown Dental treats Sleep Apnea patients with a minimally invasive device that delivers predictably successful results – so even patients who have been unsuccessfully treated for years can finally enjoy sweet, uninterrupted slumber.

## TMJ Relief

TMJ (Temporomandibular Joint disorder) is a stress-related condition, so it's no wonder that it's so common in our downtown neighborhood. Successful, noninvasive treatment of TMJ has been a specialty of Downtown Dental's practice for almost two decades.

## About Dr. Don Mungcal

Downtown professionals have been referring each other to Dr. Don Mungcal for almost two decades – he's been in the neighborhood since 1992. As well as exuding genuine friendliness and thorough professionalism, Dr. Mungcal works hard to address the unique concerns of his downtown neighbors: precision preventative care, of-the-moment technology, and consummate respect for a busy schedule.

A proud Los Angeles native, Dr. Mungcal graduated with honors from San Francisco's distinguished University of the Pacific School of Dentistry in 1990. He has an adorable daughter, is one heck of a golfer, and roots for the Bruins.

*“ This dentist rocks! His injections are painless and his work is fast and efficient. Plus he's downtown, on Grand, right across from California Plaza, so I can go during a business day if I have to. There are even televisions on the ceiling so you can watch TV. [...] Dr. Mungcal is so good I nearly fell asleep while he worked on my teeth. How many dentists can you say that about? ”*

- **ZenSasha Z., Los Angeles** (via Yelp)

*“ This is a fabulous dentist...my favorite ever! I have been going to him for 7 years and he takes care of my teeth efficiently and cost-effectively. He also has a great in-house payment plan for those without insurance. I wouldn't trust these beautiful chompers with anyone else!! ”*
